

78. No Schizophrenia has been studied (etc)... has not been shown to be a reflection of, or a reaction to - the disturbed pattern of family.

[Even if this is correct, it does not prove that the same disturbed pattern in many cases (i.e. work) does not lead result in the schizophrenic behavior. What is the factor (mechanism) for difference.

Diagnosis of little significance. Why bother with the treatment in the same in any case?

[as schizophrenia or psychosis: culture offers patterns of behavior as more normal than make a brief psychotic behavior be experienced as normal - hence the world makes sense and does not require development of manifest psychosis.

Double function of society: produces pathological condition in a human sense - and offers antidote, which prevents outbreak of any in exceptional cases.

90

42 Schizophrenia is "itself a method way of healing our own appalling state of alienation called 'normality'"

93

Madness need not need all be breakdown - it may also be breakthrough. - a voyage.

95/6

Transcendental experience = original wellspring of all religions

Laing

Behind the self both false self (Lyph. v schizo) Re

ad Laing.

The need to experience world in communal terms is largely based a biological instinct need for survival, "egoic experience."

96 To

96 "To be mad is not necessary to ill"

The mad experience is authentic, free from distortion of reality, exceeding human - but also it is a state of complete narcissism - any loving relationship harmful! - This is up

98. control of external world - almost total forgetful ness of inner world.

Is it really true that in some patients is totally narcissistic? This appears doubtful if you consider the way people at times they show friend other. See examples of Lidz (126), having an anti-psychiatry.
