

Man the Hunter

Washburn Lancaster

N 54

- 293 Homo existed for 600,000 (Jared Palka) - later form,
most probably all experts agree. = social adaptation
of all of population since Homo day (600,000)
perhaps starting with Austral. - If this is true
then pre-homo erectus at least 2,400,000
- 294 less than 1% of history dominated by agriculture & but
food gathering!!!
- 296 Man not like wolf, predatory but hunting particularly
human way.
