

15 None of man's direct <sup>genetic</sup> ancestors are any longer around.  
 In your jumping from monkeys to man two jumps  
 in the past: 1) from monkey to man's common  
 ancestor

2) from this ancestor to man  
 [3] before from birds & reptiles to monkey ]  
 16. Lorey's study was long been rejected by the scientific  
 community almost without exception.

Lorey

Lorey, 49  
6. Aggression

Man inherits the aggression instinct from his ancestral  
ancestors, but he can not control it like his intelligence.

52. In exceptional cases the threshold lowering of stimulus  
 stimuli can be said to sink to zero, since under certain  
 conditions the particular individual movement can "explode"  
 without the necessary external situational stimulation.

53. dominance / instinctive activity

55. - you are dangerous the better the members of the  
 group are and a know could be

Thalinger  
Re Study

"All signs point to the concrete conclusion that the hormones  
act directly on the central nervous mechanism."
