

[1940a]

E 11

145. id. - ego
146. Superego.
148. instinct = represent some demands.
- " conservative
- Eros → destructive instinct.
we also call it death instinct.
149. Eros not - we can not conservative. - unless Pleb.
149. Sexual act = act of aggression with the purpose for the most intimate union. I. i. instincts combined.
149. total available energy of Eros = libido.
151. libido somatic sources. various organs - parts of the body (erogenous zones)
151. libido = coincides with an according to prevailing need
- but even if not according to our theory.
151. oral-sadistic
151. satisfaction of death instinct page, does not give feeling of pleasure.
157. libido energies organize themselves into physical functions and serve the purpose of preservation of the race.
158. "the psychical is unconscious in itself" - hence pos. = natural science
157. in somatic processes I see connection with the psychical ones
in we see the true essence of what is psychical:.
158. "The processes with which it is concerned are in themselves just as unknowable as how death with by other sciences, by chemistry or physics. for example.
