An abstract of lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. **This is the abstract which has a slightly larger margin to the sides.** At vero eos et accusam et justo duo dolores et ea rebum. Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit amet. Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo dolores et ea rebum. Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit.

Keywords: Keywords 1, Keyword 2, Keyword 3

Introduction

The margins on the right and left can be customized per template. Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo dolores et ea rebum. **This is normal text. The main font-size can be changed (here 10pt) in the template. This will increase/decrease all other font sizes (like headings). Hyphenation rules are set according to the document language.** Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit amet. Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo dolores et ea rebum. Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit amet. Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo dolores et ea rebum. Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit amet.

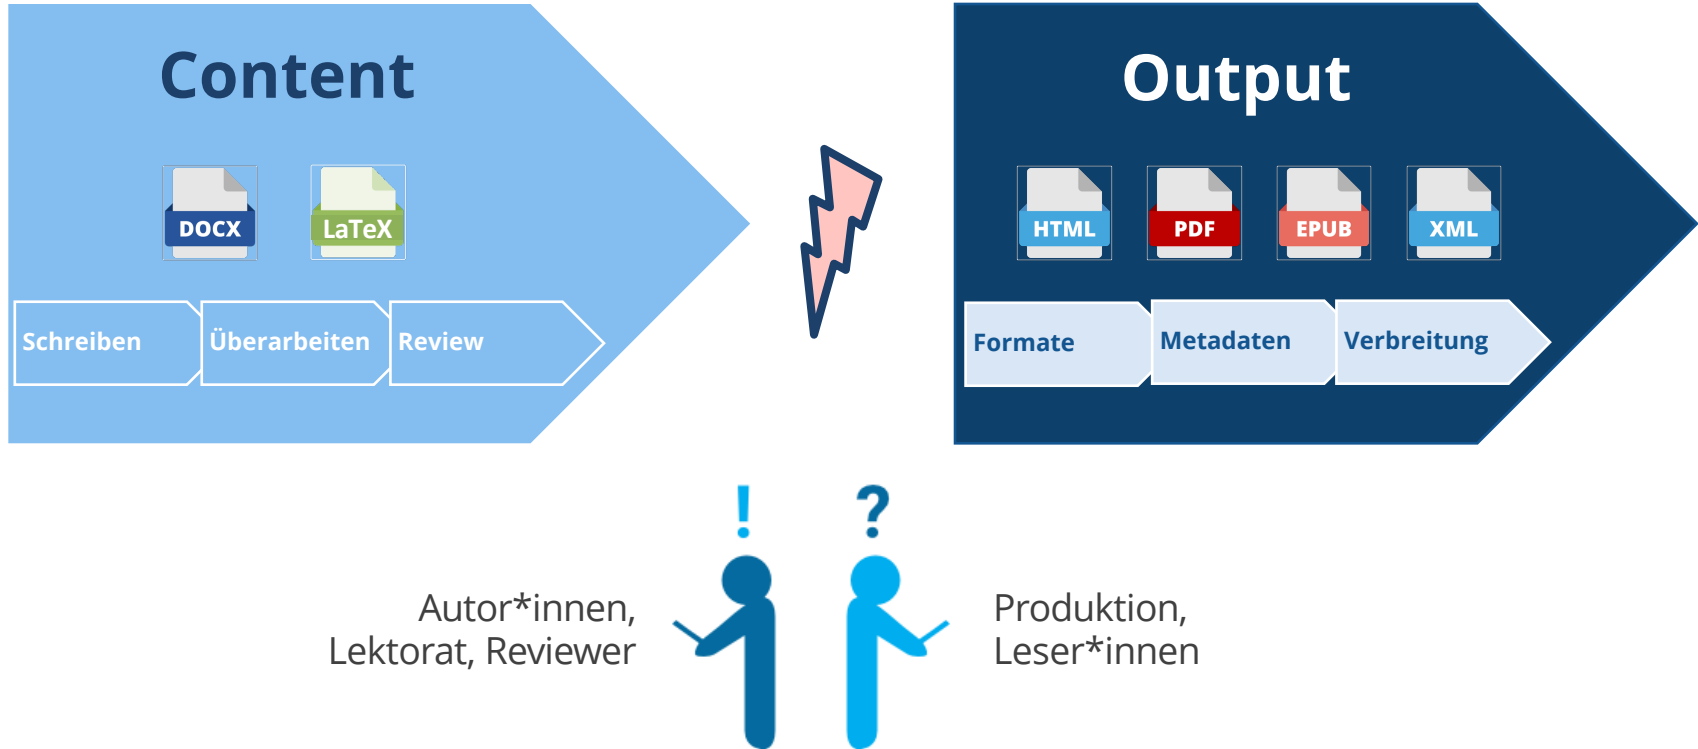

For the main text, the indent of paragraphs and the spacing between paragraphs can be changed in the template. Duis autem vel eum iriure dolor in hendrerit in vulputate velit esse molestie consequat, vel illum dolore eu feugiat nulla facilisis at vero eros et accumsan et justo odio dignissim qui blandit praesent luptatum zzril delenit augue duis dolore te feugait nulla facilisi. Lorem ipsum dolor sit amet, consetetur adipiscing elit, sed diam nonumy nibh euismod tincidunt ut laoreet dolore magna aliquam erat volutpat.

Bruch im Publikationsworkflow verhindert derzeit gute und einfache Publikationsformate

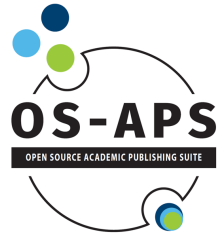

OS-APS Kernpunkte

- Web-Software, um möglichst einfach professionelle Layouts zu erzeugen (PDF, HTML, JATS-XML, EPUB)
- Open Source: Docker On-Premise oder Hosting
- Anbindung an verbreitete Tools zum Publizieren
Pandoc, OJS/OMP, CSL (Zotero Format)
- KEIN „neuer Standard“

BMBF gefördert vom 01.02.2021 – 31.01.2023

Zusammenfassung wichtiger Ergebnisse

- Umfrage zur Anforderungserhebung bei Hochschulverlagen und kommerziellen Verlagen abgeschlossen
- Demo verfügbar unter: os-aps.de
- Bisher drei OMP-Reihen und OJS-Journals migriert und zur dauerhaften Identifizierung über DOIs nach DSpace exportiert

Vortrag auf dem 8. Bibliothekskongress 2022

1. Kurzdarstellung des Projektes

2. Anforderungserhebung

3. Vorstellung Workflow OS-APS

GEFÖRDERT VOM

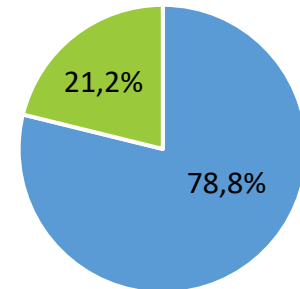

Bundesministerium
für Bildung
und Forschung

Anforderungserhebung

- Ziel: Erhebung der Anforderungen an die zu entwickelnde Software „Open Source Academic Publishing Suite (OS-APS)“
- Online-Umfrage mit Kombination aus Multiple Choice und offenen Fragen mit Freitextfeld
- Verteilerkreis beispielsweise AG Universitätsverlage, AEUP, Enable!-Community, PKP Community Forum, Kooperationspartner wie CeDiS etc.
- Die Umfrage wurde vom 21.10.2021 - 22.12.2021 insgesamt 52 mal ausgefüllt.

Bitte wählen Sie den Publikationstyp aus, für den Sie den Fragebogen ausfüllen möchten.

■ Monographien ■ Periodika (Journals)

Kontextualisierung:

- Beschreibung der teilnehmenden Verlage:
Größtenteils Hochschulverlage, aber auch kommerzielle Verlage
u.a.

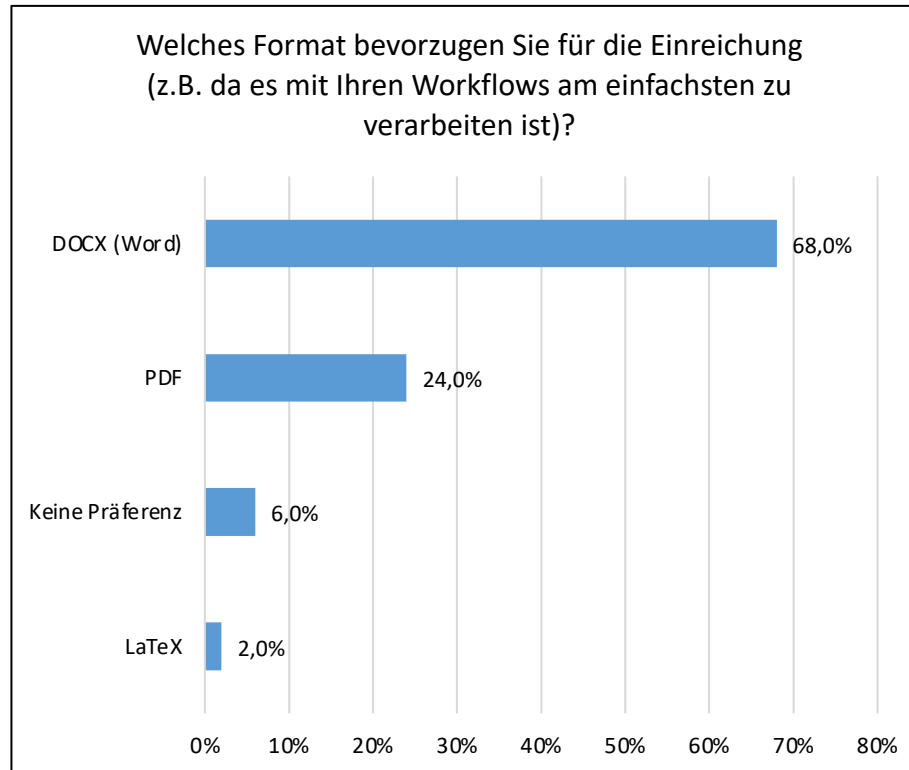

- Berufliche Rolle der Personen, die die Umfrage ausgefüllt haben:
Meist Verlagsleitung

- Fachrichtungen, in denen publiziert wird:
Alle, aber tendenziell eher Geistes-, Kultur- und Sozialwissenschaften

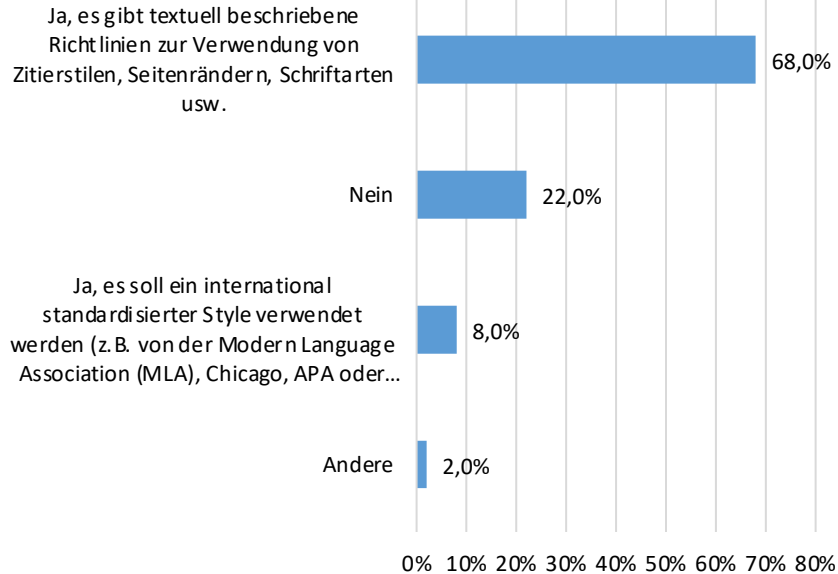

MS Word als prioritäres Format für die XML-Extraktion

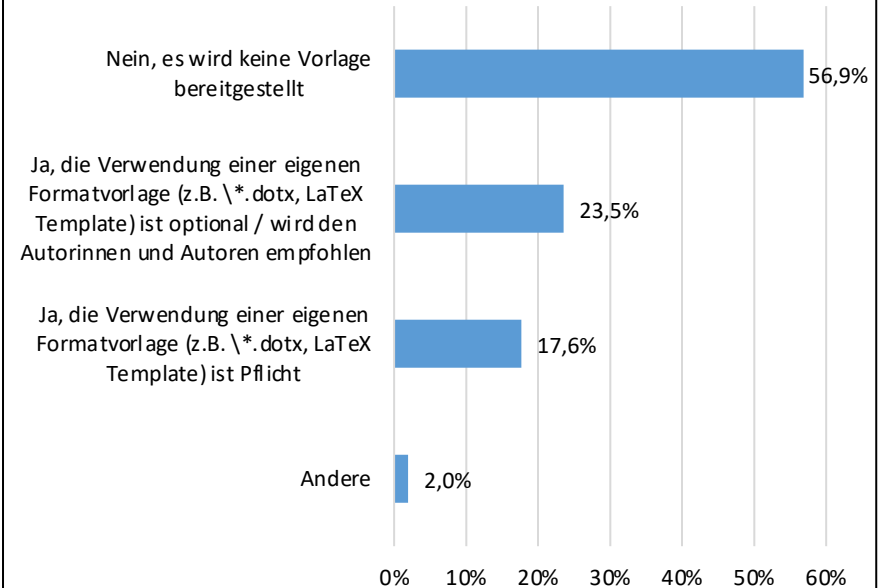

Es gibt meist textuelle Formatierungsvorgaben bzw. -richtlinien (68%), jedoch oft keine konkreten Vorlagen (56,9%) – das Template Development Kit sollte sich entsprechend eher an ersteren orientieren

Gibt es Formatierungsvorgaben für die Manuskripte?

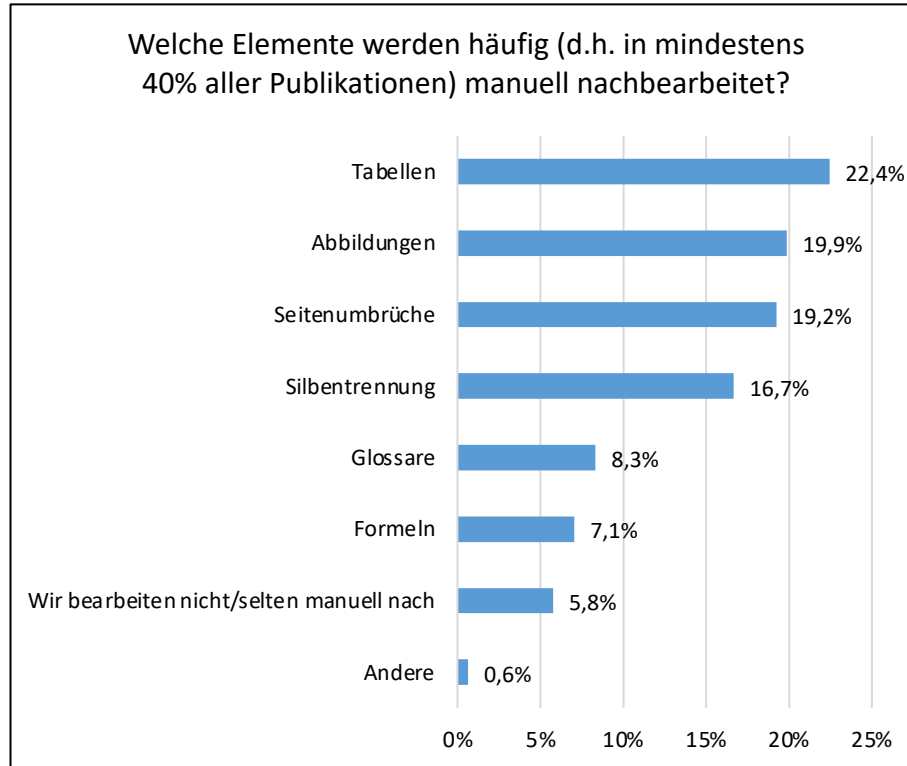

Wird vom Verlag eine Formatvorlage (Template) für die Autorinnen und Autoren bereitgestellt?

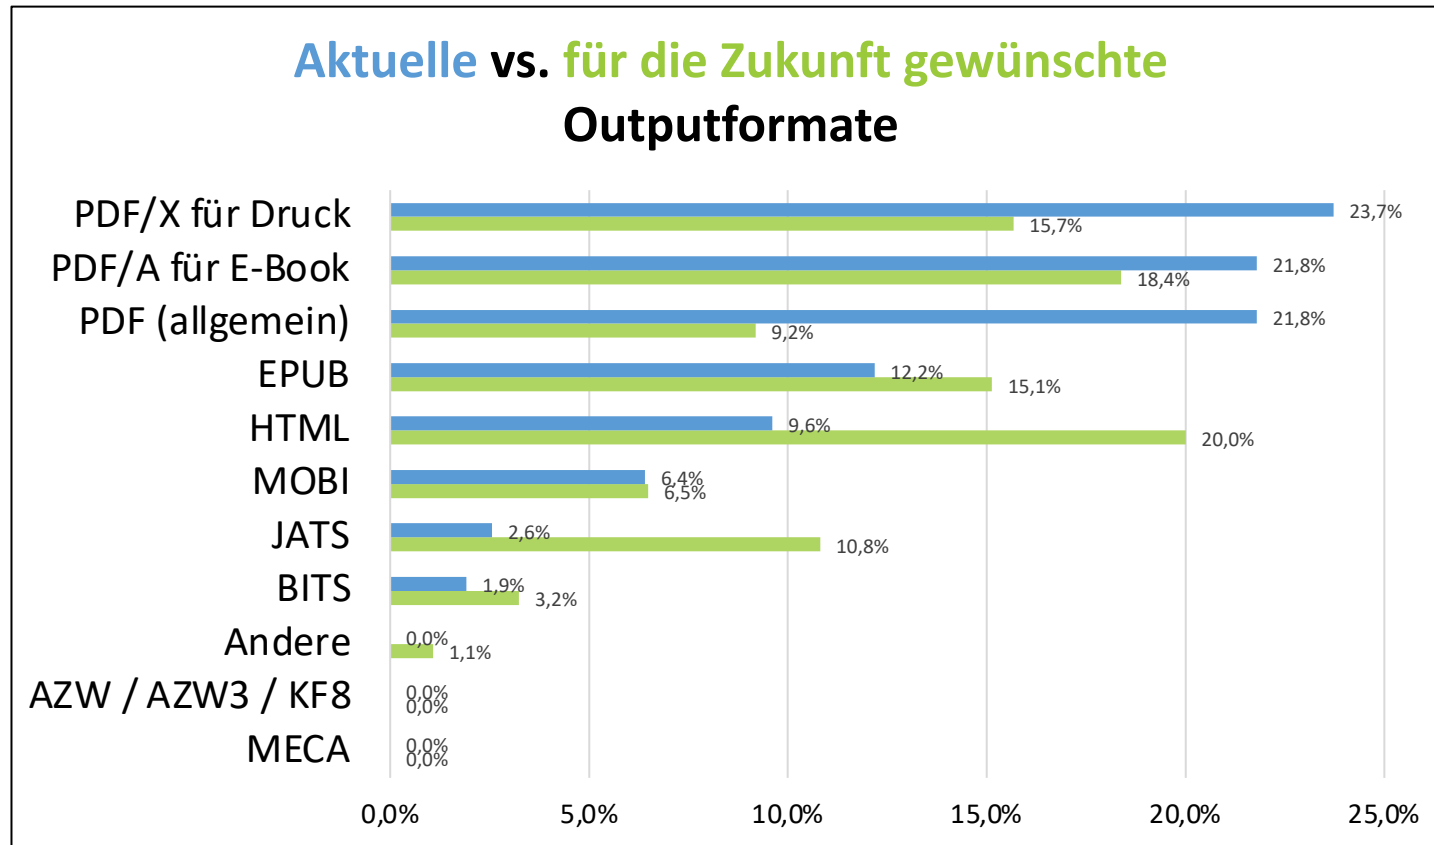

Nur in 20,4% der Fälle rein lateinische Schrift, d.h. Bedarf an Sonderzeichen und speziellen Fonts

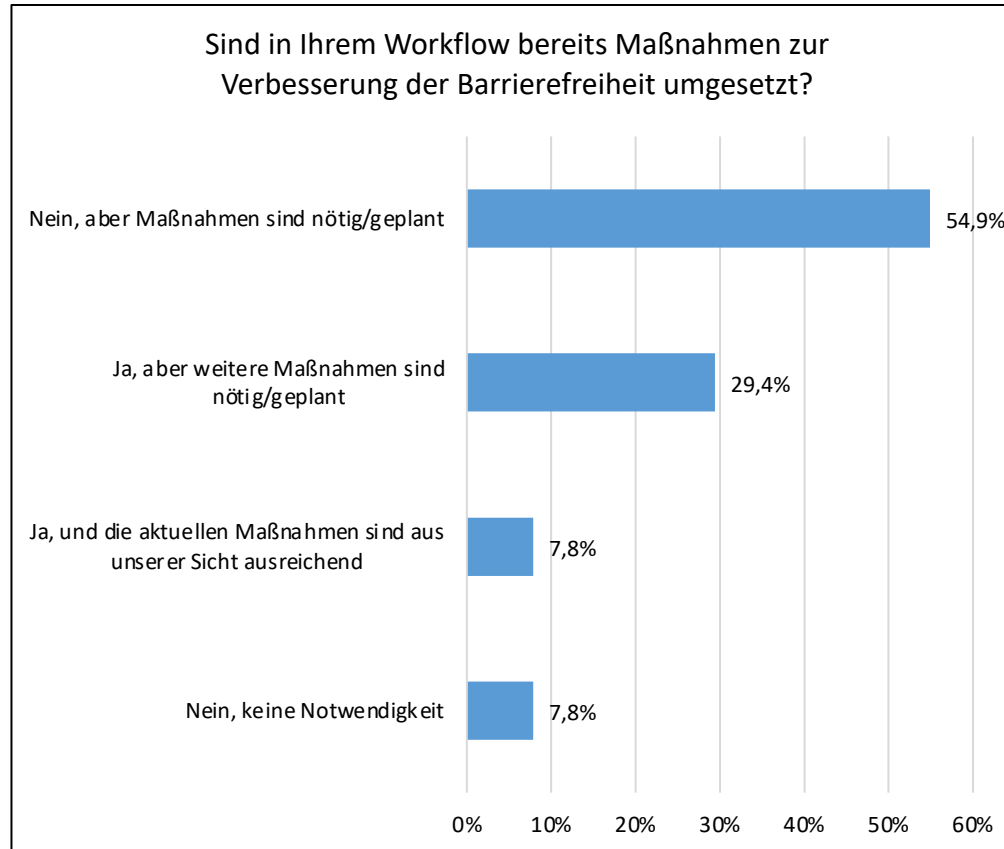

Priorisierung der Darstellungsoptimierung der Fälle, die oft manuell nachzuarbeiten sind: 1. Tabellen (22,4%), 2. Abb. (19,9%), Seitenumbrüche (19,2%), Silbentrennung (16,7%), ...

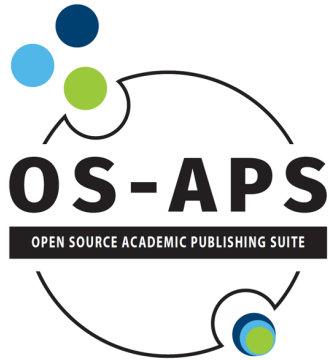

Outputformate: Aktuell werden vor allem PDFs erzeugt. Für die Zukunft wünschen sich die befragten Verlage verstärkt HTML, EPUB und JATS als Outputformate.

Zukunftspotenziale: Barrierefreiheit ist ebenfalls ein wichtiges Wunschthema (84,3%)

Workflow – Wie OS-APS funktioniert

Manuskript (z. B. MS Word) liegt vor

Import in OS-APS Texteditor

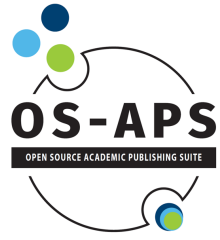

Überarbeitung im Texteditor

Export (PDF; HTML, XML)

Hochladen Publikationsplattform (z. B. OJS/OMP/DSpace)

Vorstellung der Komponenten

1) OS-APS Texteditor

- Im OS-APS Texteditor können Manuskripte importiert werden
- Textänderungen möglich
- Ergänzungen von Metadaten
- Semantische Verweise (z. B. Referenzen) hinzufügen

The screenshot shows the OS-APS Texteditor interface. The main window displays a document titled "Writing with OS-APS". The document content is organized into sections: "Abstract", "Introduction", and "Methods". Each section contains placeholder text (Lorem ipsum). The "Introduction" section is currently expanded. On the right side, there is a "Document outline" sidebar showing a hierarchical list of headings: "H1 Writing with OS-APS", "H1 Abstract", "H1 Introduction", "H1 Methods", "H2 A heading 2", "H2 Discussion", "H1 Ich frage mich, was das i", and "H1 References". Below the outline, there are two instructional boxes: "Add more chapters (h1)" and "Cross referencing", both with "read more" links.

Der Report of the Human Rights Council Advisory Committee on the activities of vulture funds and the impact on human rights (A/HRC/33/54): Hintergrund, Entwicklung, Rechtsrahmen sowie kritische völkerrechtliche Analyse

Aline Schäfer

Über dieses Buch

Distressed-debt investors, often referred to as Vulture funds, pose one of the biggest threats when restructuring state bonds. Their business practice which goes hand in hand with the so called "debt litigation" have huge financial impacts on countries during an economic crisis, especially on some of the poorest states in the world. But at the end of the day, the real victims in this are the people, as, they are the ones whose basic human rights are being violated. Civil courts usually find that their hands are tied. And even the international public law fails to provide a legal basis that has the power to prevent the Vulture Funds from pursuing said "debt litigation". The Human Rights Council Advisory Committee has now devoted part of their work to finding a solution to this issue. Their latest strategic approach: the claim for new legislation on a national level, that is meant to limit the profit vulture funds gain by "debt litigation". However, this does not seem to be a solution to the problem in the long run, as vulture funds are mainly benefitting from the sheer fact that proper "State insolvency proceedings" are non-existent now and have yet to be established. Tackling this very root of the problem would not only help contain the "debt litigation", but more importantly it would make debt restructuring inevitable for "hold out-creditors". On top of that, a standardized mechanism, given that it is being supervised by an independent committee, would also be an instrument to increase legal certainty.

Anbindung der ersten OJS-Beiträge an DSpace

The screenshot shows a DSpace article page. At the top, there is a green navigation bar with a logo on the left and the text "Aktuelle Ausgabe Archiv Über uns - MLU Fachgruppe Anthropogeographie" on the right. Below the navigation bar, the breadcrumb trail reads "Home / Archiv / Bd. 2 (2020): Großwohnsiedlungen als Ankunftsquartier? Wanderungsbewegungen und Segregationsprozess in Halle (Saale) / Artikel". The main title of the article is "Großwohnsiedlungen als Ankunftsquartier? Wanderungsbewegungen und Segregationsprozess in Halle (Saale)". The authors listed are Paul R. Schneider, Florian Ringel, and Jonathan Everts. A red arrow points to a "PDF" button located to the right of the authors' names. Below the authors' names, the publication date is "09.11.2020". The abstract section begins with "In Germany, large residential housing estates built during the 1950s to 1980s have become important areas for migrants and refugees. In Eastern Germany, estates from the socialist era have lost many of their inhabitants following the reunification in 1990. Some, like those in the city of Halle (Saale), have lost more than half of their population. This downward trend has stopped now and in some areas, population size grows. For Halle (Saale), we computed the in and out-migration of large socialist housing estates from 2011 to 2018 and compared it to the late 19th century parts of the inner city which are now well-sought after residential areas. We find that German residents have left in great numbers the estates. At the same time, migrants have moved in even greater numbers to the estates. Most of them did not come from the parts of the inner city, suggesting that displacement through gentrification has not (yet) been the decisive factor for ethnic segregation. However, some migrant households are now, most recently, moving away from the estates as well and towards the city centre. This suggests that ethnic segregation is now being superseded by social segregation." The right sidebar contains the language selection options: "Sprache", "Deutsch", and "English".
