## History, Numbers, Characteristics

Digital Reference Tool for Academic Databases

bibliographical & literature research

Expansion, consolidation and optimization

14.567 Academic Databases

UR LIBRARY SERVICE

6.102 freely accessible

5.1 Mio. annual database views via DBIS

intuitive user interface

Institution's own DBIS view

OPEN, LOCAL, GLOBAL

Simple administration

Uncomplicated license management

User interface in German and English

DBIS-Community

371 organizations

QUALITY ASSURANCE

Export options for further use various subject areas

cooperative data maintenance

Yearly conference

Mailinglist

visualization of accessibility via Traffic light symbols

Administration in German and English

Advisory Board

Uniform access to licensed and freely available databases

# What is the DBIS?

## Vision & Mission

We believe in **trustworthy information** for research and education. Through the **transparent cooperation** of knowledge institutions, we **efficiently and individually** find the fitting scholarly database.

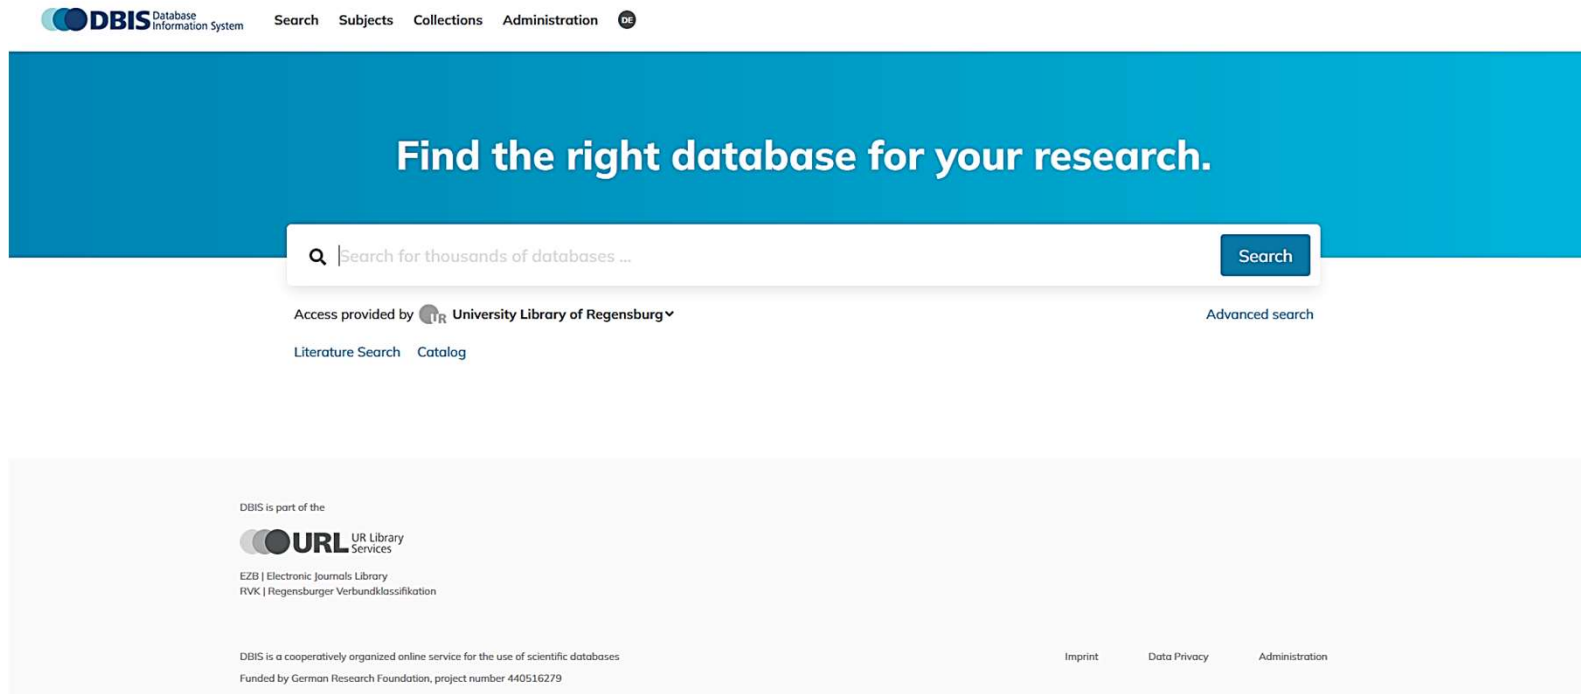

—Our Mission

To **network our knowledge**, share it internationally and show every person a **way to scholarly information**.

—Our Vision

# What is the DBIS?

## Database Search: Entry Page

The screenshot shows the DBIS Database Search: Entry Page. At the top left is the DBIS logo (Database Information System) and a navigation menu with links for Search, Subjects, Collections, and Administration. A large blue banner contains the text "Find the right database for your research." Below the banner is a search input field with a magnifying glass icon and the placeholder text "Search for thousands of databases ...". To the right of the input field is a blue "Search" button. Below the search field, it says "Access provided by University Library of Regensburg" with a small logo and a dropdown arrow. To the right of this is a link for "Advanced search". Below that are links for "Literature Search" and "Catalog". At the bottom of the page, there is a section titled "DBIS is part of the" followed by the URL logo (UR Library Services) and the text "EZB | Electronic Journals Library" and "RVK | Regensburger Verbundklassifikation". Below this is the text "DBIS is a cooperatively organized online service for the use of scientific databases" and "Funded by German Research Foundation, project number 440516279". At the bottom right of this section are links for "Imprint", "Data Privacy", and "Administration".

Relaunch of the DBIS

Quality Through Cooperation:  
Open, Local, Global

**Future of the DBIS**

# Future of the DBIS

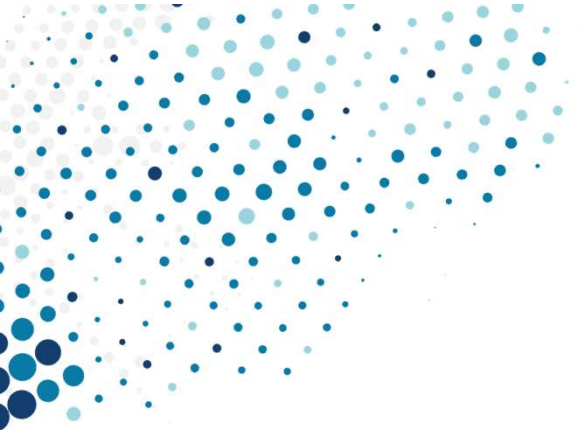

- Registration for the new DBIS will start shortly
- If you are interested in using DBIS, non-German-speaking new participants are also welcome to register

[info.dbis@ur.de](mailto:info.dbis@ur.de)

**We are looking forward to an even larger community  
with which we can further improve DBIS  
and promote data exchange with other systems**
