Altmetrics können dabei helfen...

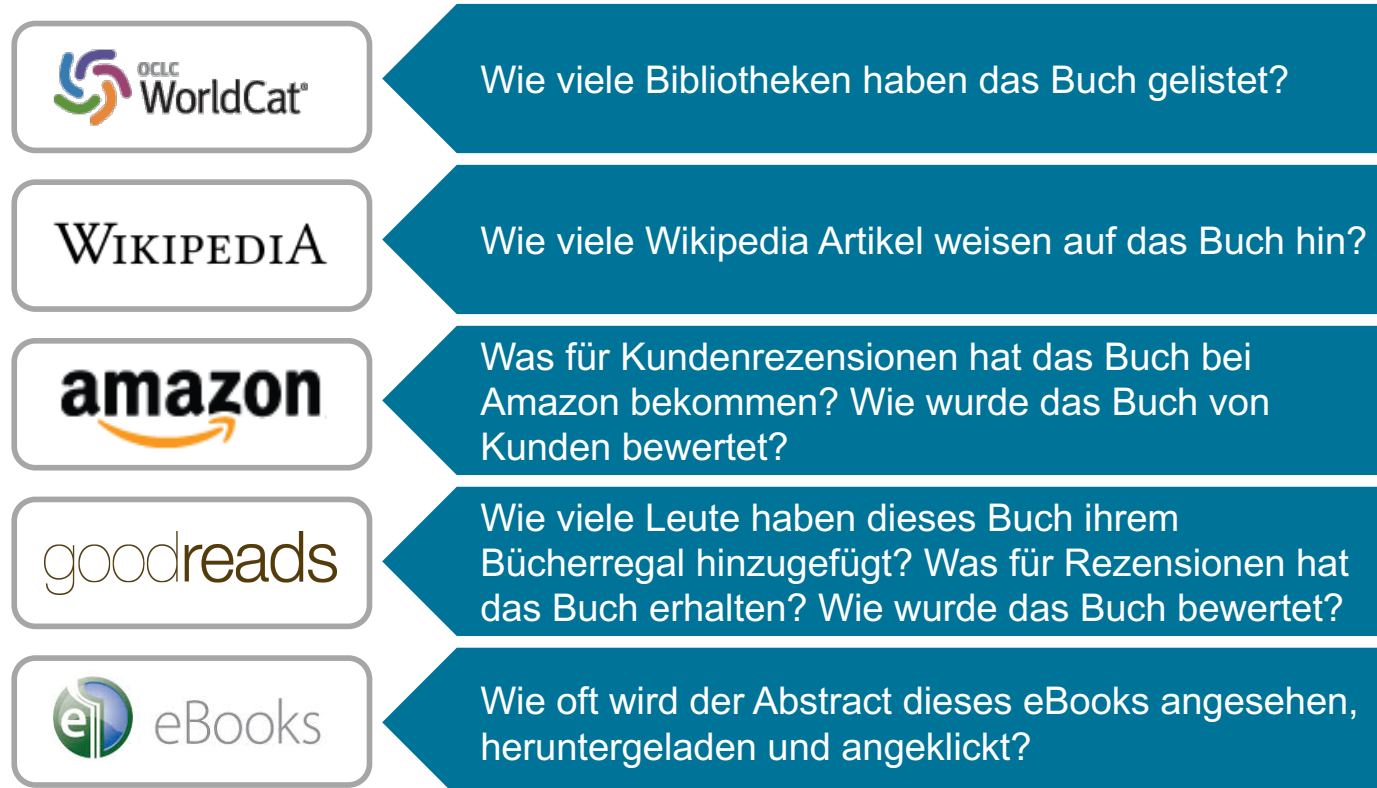

- Nicht-traditionelle Outputs zu messen
 - Bücher
 - Konferenzberichte
 - Datensätze
 - Politische Positionspapiere
- Nicht-traditionelle Metriken zu messen
 - Klinische Zitationen
 - Zitationen in politischen Positionspapieren
 - Nennungen in Nachrichten und Blogs
 - Wikipedia

Bücher/Buchkapitel haben Bedeutung!

- Zitationen werden Büchern nicht gerecht
 - Wir brauchen neue Buchmetriken!
- Besonders wichtig für Sozial- und Geisteswissenschaften:
 - Bücher sind häufig das Hauptmedium dieser Fakultätsmitglieder

I've been studying Jung for several years now, and I'm baffled as to why this book has not been on any of the reading lists for the various classes I've taken. Rowland's explanations of Jungian concepts, the various schools of feminist thought, and philosophy and psychology in general are clear and easy to grasp. She does not dumb down her writing -- this is no "pop psychology" book -- but her book still makes an excellent primer for those new to Jung's thought. For those struggling with Jung's misogynist aspects, as I am, this book is very helpful.

A very concise, well researched, clearly stated piece of work. A must for those who wish to see how Jungian psychology is evolving and how new approaches must be put into practice. Highly recommended.

April rated it ★★★★★
 Shelves: women-s-studies, jungian, favorites

The subtitle is missing... A Feminist Revisioning... an aMAZing book! Very helpful in understanding the women who worked with Jung to develop what became Jungian theories and practices. Very clear and concise. Also very helpful is how Rowland explains Jungian terms and difficult concepts in simple language that is accessible to general readers as well as advanced students.

Colin rated it ★★★★★ · review of another edition

Great survey of the current literature on a revision and expansion of Jung's theories of gender relations with an emphasis on the feminine.

Spiritualism (beliefs)

Carl Jung [\[edit\]](#)*Main article: Carl Jung*

[Carl Jung](#)'s doctoral dissertation was not medical research but the investigation of a medium, his maternal cousin, H el ene Preiswerk.^[74] His mother, Emilie Preiswerk, was born into a family that regularly practised Spiritualism, the daughter of a man who held weekly seances with his dead first wife who instructed young Emilie to stand behind his chair to discourage ghosts. Jung showed a willingness to take Spiritualism seriously at this formative stage in his life and the early experiences with H el ene Preiswerk suggest a credence of Spiritualism as possible evidence of the supernatura.^[75]

Fazit

- Altmetrics: moderne Metriken die reflektieren wie sich Forschung verändert
 - Neue, nicht-traditionelle Arten der Publikation
 - Outputs welche zuvor nicht viele Metriken hatten (z.B.: Bücher, Buchkapitel)
 - Messung von Einfluss welcher über traditionelle Zitationen hinausgeht
 - Klinische Zitationen / Referenzen in politischen Positionspapieren
 - Populäres Bewusstsein & online Diskussionen
