

## **Publication of a student final thesis on the publication server**

### **OPUS of the HNE Eberswalde**

Final theses (Bachelor's and Master's theses) by students of the HNE Eberswalde can, under certain circumstances, be stored and published as a quality-assured online publication freely accessible on the web in the HNE Eberswalde Open Access Repository.

The requirements are:

1. Students can request the publication of their final thesis for publication with a recommendation from the first examiner.
2. The thesis to be published must have been graded 2.5 or better.
3. The full text as well as the appendix of the thesis to be published is not restricted or similar.
4. The students are obliged to ensure that the rights of third parties do not conflict with the publication.
5. The full text of the thesis to be published must be available as an electronic document (PDF (PDF/A is recommended) with the following exemplary file name: Type of thesis\_name [Bachelor thesis\_Mustermann]).
6. Appendices belonging to the thesis in electronic form are published with the thesis.
7. The University Library checks the bibliographic data and the technical condition of the submitted electronic documents before publication.

## Assignment of rights to the HNE Eberswalde

1. I hereby grant the HNE Eberswalde - represented by the President - the simple right, unlimited in time, to store the above publication electronically, to publish it on the publication server and on the internet.
2. I grant the HNE Eberswalde the right to make the document available for the purpose of publication and long-term archiving.
3. I grant the HNE Eberswalde the right to make the document, including the associated metadata, available to other libraries, archives and the German National Library. This applies, e.g., to the digital archive of the German National Library as well as other repositories that come into question in terms of subject or region.
4. The university library and users are entitled to download and save the above-mentioned publication for private and other personal use, subject to any CC licence I may have stipulated.

## Agreement on archiving

1. The uploaded publication corresponds to the PDF format. I allow the HNE Eberswalde to carry out necessary adaptations in correspondingly suitable electronic and physical formats. In the course of these adaptations the HNE Eberswalde will not make any changes to the content.
2. I allow the HNE Eberswalde to make any formal additions and corrections to the metadata.

## Ownership of rights

I assure that copyright and licensing problems do not prevent the publication on the internet and that the rights of third parties are not violated. In particular, I assure that I am the exclusive owner of the rights and that I have all the necessary rights of use. I release the HNE Eberswalde from any claims of third parties.

I assure that my thesis does not contain any personal data of third parties that are subject to data protection or that I have explicit written consent for publication.

I assure that the submitted version of the thesis corresponds to the approved original version. Excepted from this are those parts of a publication that are subject to data protection.
